DC
Completed $\hat{y}$
180 × 128
measured sinogram y: residual learning and data consistency
conv 3 × 3 + InstanceNorm + LeakyReLU
max pooling 2 × 2
bilinear ×2 + conv 3 × 3
skip connection (concatenation)
conv 1 × 1
residual: $y + f_\theta(y)$
data consistency (measured views kept)
copy of the input
